

GOW Engineering and Technical Services

GOW Engineering and Technical Services: The leader in Piping Engineering Design Institutions and the technical solutions provider for Oil, Gas, Power Plant, Marine. We designed our training Program for who get opening into the field as Project trainee technician, Piping Draftsman in entry level and after step by step guidance provided.

Our Vision

Our vision is focus on get engage in large capital **Global Projects** and to produce the empowered super skilled professional who getting into commit in international projects. We have to engage our trained force among all over overseas projects.

Job Guidance & Interview

After the successful completion of training, we will assist candidates for **Personality Developments & Interview**. We support our trained force by refer to our clients for jobs.

Piping Draftsman

- Over view of Oil and Gas • Piping Introduction • Fittings • Valves • Flanges
- Mechanical Equipment • Flow Diagram and Instrumentation • Codes and Specification
- Equipment Layout • General Arrangement Drawing • Sections and Elevations
- Standard Piping Details • Piping Isometrics

Mechanical Draftsman

- Oil and Gas Introduction • Pipe Design and Drafting Overview • Basic Autocad Drawings
- Mechanical Equipments Overview • Horizontal Vessels • Vertical Vessels • Pumps
- Nozzle Arrangements • Pump Drivers • Compressors • Exchangers • Reboiler
- Cooling Towers • Heatres and Boilers

Electrical Draftsman

- Electrical Design and Drafting Introduction • Pipe Design and Drafting Overview
- Electrical Wiring • Miniature Circuit Breaker (MCB) • Earth Leakage Circuit Breaker
- Molded Case Circuit Breaker • Capacitor Bank • Cables • Cable Trays and Ladder
- Electrical Distribution Board • Electrical Distribution Board • Socket Outlet and Switch
- Lighting Looping Layout • Power Looping Layout • Telephone Layout Drawings
- Low Voltage Room Details

Instrumentation Draftsman

- Basic Principle of Petroleum • Overview of Oil & Gas Processing
- Wellhead Platform and Equipment • Pressure Measurement • Temperature Measurement
- Level Measurement • Flow Measurement • Introduction to Automatic Control
- Final Control Element & Safety Valves • Fire & Gas Detection and Safety Systems and SIS
- Instrument Calibration • Oil & Gas Analyzer • Control Loop Troubleshooting
- Introduction to Distributed Control System (DCS)

Address

No 15, Revathipuram Main Road, Ayyancheri, Urupakkam, Chennai - 603 210
9786602549, 9003611292, +914427466325

Draftsman *Piping, Mechanical* *Electrical & Instrumentation*

Qualification:
ITI, Diploma, B.E.,

Training Skill: Autocad, PDMS

Skilled Technician

Qualification:
SSLC, ITI, Diploma, B.E.,

Training Skill:
Piping - Fabricator/Fitter/Grinder/Rigger/Welder
Structural- Fabricator/Fitter/Gas Cutter/Welder
Electrical & Instrumentation - Cable tray fitter/
Cable jointer/E&I technicians/Permit Holder/
Safety Assistant/Fire watcher/Bang man

Engineering

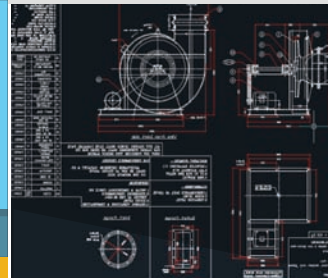

Qualification:
ITI, Diploma, B.E.,

Training Skill:
Project Design Specification, Detailing Engineering,
Procurement, Custom Design Specification,
Autocad, PDMS

Projects Technician Training

Qualification:
ITI, Diploma, B.E.,

Training Skill:
Project management
Project Planning & Scheduling
